

KEREN WANGECHI NDERITU email;wangechikeren@gmail.com Phone; +420739306649

I am a trained DevOps engineer/Full-Stack developer. I have worked on various projects and I am open to more challenges. With great mentorship and training, I have gained great hands on experience in the CI/CD process which can be greatly employed and utilized. I am open to learn and collaborate with great minds on projects or work.

SKILLS

DevOps~CI/CD	Process management	Research and Development
Javascript/HTML/Python	Docker /Kubernetes	Next.js/MongoDB/Google cloud
Restful API	Time management	Jenkins/GIT/AWS

EDUCATION AND QUALIFICATIONS

Global Dev.Experts –DevOps training course	2024-current
University of Chemistry and Technology (VSCHT), Prague-Czech Republic	2023-Current
Masters in Chemical Engineering	
AI projects with Python- Yazilim Technolojileri Akademisi	2023 -Current
Dedan Kimathi University of Technology, Nyeri-Kenya	2017 – 2022
Bachelor of Science in Chemical Engineering	

WORK EXPERIENCE

DHL IT PRAGUE:IT Service delivery management support	February 2024 – Current
Management support	

PwC Switzerland Power BI Training	January - February 2024
Completed a job simulation where I strengthened my PowerBI skills to better understand clients and their data visualisation needs.	

Ranido s.r.o (Czech Republic)	2022 - 2024
- Research on heterogeneous catalysts - Methanol to Gasoline process control and monitoring at The Heyrovsky institute of Physical Chemistry	

Technical University Bergakademia, Freiberg (Germany)
Institute of Energy and Chemical Engineering

2022

- Participation in the research project on the development of an LCA (Life Circle Analysis) tool for the production of synthetic liquid fuels from CO₂ and H₂ gases
- Familiarization with the GEMIS software (Global Emissions Model of Integrated Systems)
- Development of LCA calculation tool with an integrated database in excel
- Ecological assessments of the Methanol to Gasoline (MtG) and biogas methanation processes

Menengai Oil Refinery
Industrial intern

2022

- Monitoring and controlling the refinery process of the crude palm oil to produce a finished product of edible oil

Highlands Mineral Water Company
Industrial Attaché at the Quality Assurance Department

2020

- Quality assurance and control of the finished products which included bottled drinking water through various chemical and microbiological analysis

LANGUAGES

I can fluently converse, read, write and speak English
